

GUIDE CAMP SKILLS DAY

For Guides & their Guiders

Save the Date!

Saturday, April 8, 2017

Location – Cates Park, Deep Cove

9am to 4pm

This all-day outdoor training is targeted towards first-year Guide-age girls and is an annual favourite!

Guiders and girls will rotate through a ‘hands-on’ round robin of training opportunities that will cover camp cooking with yummy tasters (*always a hit with both girls & leaders!*), shelters, tents, stoves & lanterns as well as fire lighting!

You will want these skills so that you can try them out at your Spring tenting camp!

This is a fun full-day spent in the outdoors and for many...this will be their first experience!

An important part of camp skills training is learning how to stay warm and dry...no matter what the weather! Before attending Guide Camp Skills Day, we will help you ‘prepare’ yourself and the girls for a day outdoors through a series of preparatory emails or ‘baby steps’.

Guiders must provide supervision (minimum and ratio) throughout the activity and have a First Aider (*please see the First Aid page for training dates*).
Come to participate and learn with the girls!

Registration details will be posted in early January...

Registration deadline – form & fees March 1st

There is a \$10 fee per girl for this training (no fee for Guiders providing ratio/minimum)

For Pathfinders, TREX, Rangers and Guiders

WET & WINTER CAMP SKILLS TRAINING

Watch for a new date in the Fall of 2017

Location - TBA

This training is perfect for all outdoor activities in our often soggy adventure playground! This training is also a prerequisite for ‘Under the Boughs’ which is our annual snow camping experience and is strongly recommended for Pathfinders and Rangers who want to take on winter activities. This is an outdoor event so dress accordingly. This session is all about how to stay dry, warm and having fun no matter what the weather!

Pathfinders/TREX and Guiders

PATHFINDER SKILLS DAY **Tentative*

Sunday, May 7

This exciting new event is a challenge day for Pathfinders from across Lions Area.

Watch this site for details!
