

Second STEP of the OAL Stream

RESIDENTIAL CAMP PLANNING...the 5W's & How!

The girls love to go camping and often their first experience is in a building (*we call this 'Residential Camping'...*)

Build success into your camping experience by having the necessary tools to plan and execute the perfect camp!

We will cover all aspects of planning, timelines, sharing the tasks and responsibilities, program, agendas, possible venues, rainy day activities, themes, food & nutrition and camp life...all while ensuring a safe and fun environment! We will also cover day camps and mother & daughter sleepovers.

Needs Assessment...

Perhaps you are ready for some additional challenges...

Depending on the needs and experience of the Guiders who register for this session, we can include additional information and skills for you to take your girls to an established tenting camp (*platform tents, huts etc.*) where the focus is on safe and fun outdoor camp life!

*Residential Camp Planning is a session choice at our
Lions Area Training Extravaganza at Guide House January 25 & 26, 2020.*

*Registration information & session choices will be coming out through Informz and
through your District Commissioner in October.*

Please join us...the magic of camp awaits!
